Completion
October 21, 2018

Designer
Bermello Ajamil & Partners, Inc

Terminal 25 (T25) is Celebrity Cruises' first ever brand-designed cruise terminal, signaling a major milestone in the growth of the modern luxury cruise line. Among the many exciting features is the exclusive Suite Class guest haven, the inclusion of "Frictionless Arrival" technology, and an interactive light wall art installation.

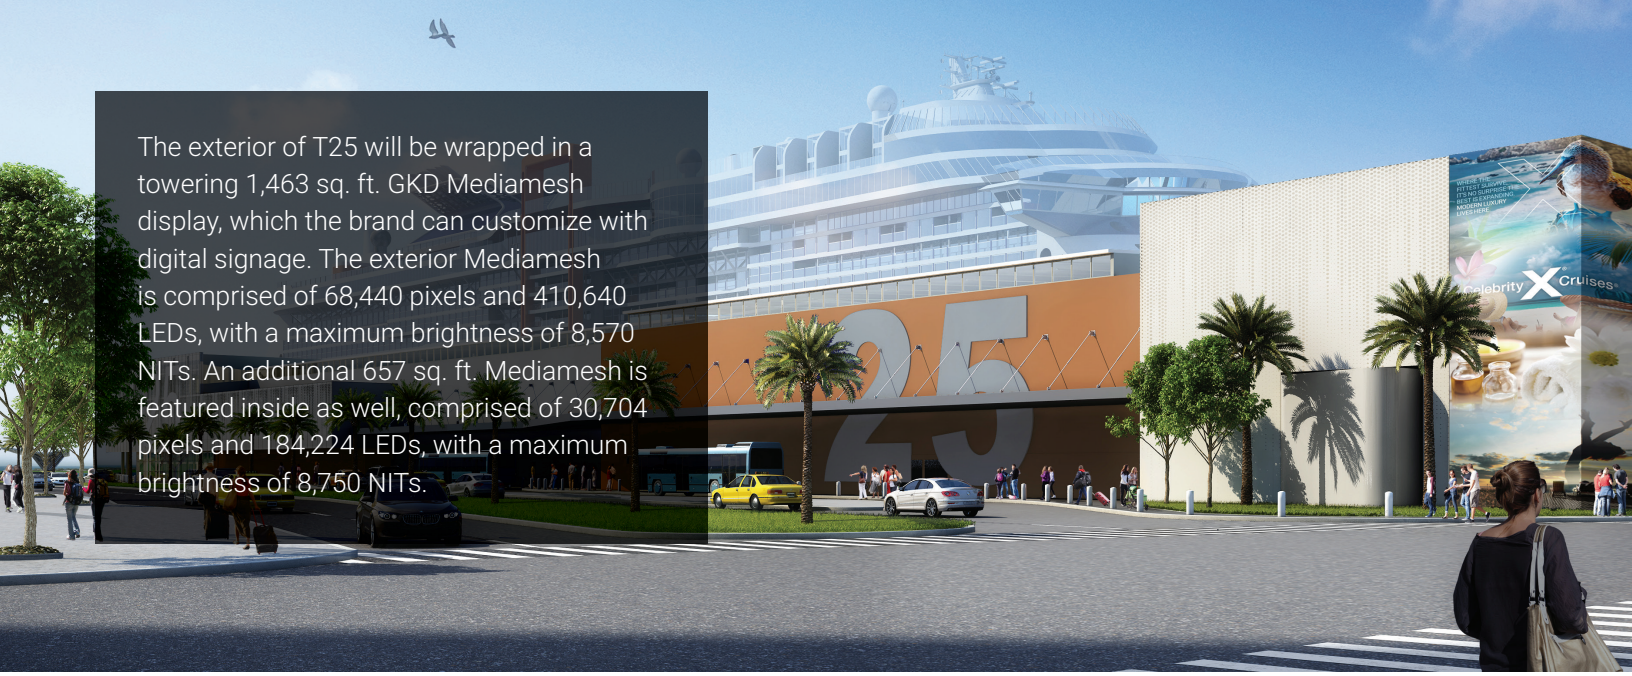

Scheduled for completion on October 21, 2018, the first ship to call T25 home will be *Celebrity Infinity* on October 24, 2018. T25 will be the new home to many other Celebrity ships during their winter deployment, including *Celebrity Edge*, *Celebrity Reflection* and *Celebrity Silhouette*.

T25 BY THE NUMBERS

- LEED certified and able to accommodate up to a 1,150-foot-long ship
- Features a massive 10,400 sq. ft. separate luggage annex
- Wrapped in 18,257 sq. ft. of outward-facing glass
- Floors finished with 9,979 sq. ft. of glistening terrazzo

"Frictionless Arrival" technology will make the check-in process absolutely seamless at T25. The terminal was designed to be adaptive, featuring modern pod-style mobile check-in desks, also being able to accommodate legacy technology.

The exterior of T25 will be wrapped in a towering 1,463 sq. ft. GKD Mediamesh display, which the brand can customize with digital signage. The exterior Mediamesh is comprised of 68,440 pixels and 410,640 LEDs, with a maximum brightness of 8,570 NITs. An additional 657 sq. ft. Mediamesh is featured inside as well, comprised of 30,704 pixels and 184,224 LEDs, with a maximum brightness of 8,750 NITs.

T25 will also offer Suite Class guests an entirely separate experience along the path to The Retreat, with an exclusive lounge, elevator lobbies, screening areas and even a private rooftop terrace.

The terminal will also feature the first purpose-built crew lounge for any terminal under the Royal Caribbean Cruises Ltd. family. Crew will have complimentary Wi-Fi connectivity, TV access, optimized storage, quiet spaces and more.
